

Cooling Systems Service Experts for Your Chevy, Ford and Dodge or Import Automobile

Dandy Auto specializes in servicing your vehicle's cooling system to protect your investment.

With every customer's visit we inspect the hoses and belts and also the condition of the coolants pH level. Old coolant can look good but may have lost all the corrosion protection. We can service and repair the complete cooling system as needed using the best parts available.

Every Dandy Auto Cooling System Service includes the following performed by a Certified Technician:

- Inspect the condition of the radiator, hoses and clamps and test for leaks.
- Inspect for hardened deposits in the radiator core.
- Inspect the radiator fan and drive belts for wear and replace as necessary.
- Inspect the fan belts and replace as necessary.
- Renew engine thermostat if necessary.
- Flush the complete cooling system with a heavy duty flush machine.
- Refill with a quality clean fresh coolant mixture and an additive to protect the system from corrosion. perform a final systems check for operation and leaks.
